

Technologies Overview.

Uniguest is the most TRUSTED provider of digital engagement and digital signage technology for guests, residents, customers, students, patients, fans, and employees in the markets we serve, engaging audiences in a secure way.

Digital Signage

Uniguest is one of the world's top five providers of digital signage technology, with more than 250,000 digital signage and IPTV displays deployed across the globe. Our Content Management Systems allows for a wide variety of content and solution types to be deployed and managed from a single point; allowing you to manage your entire network and digital engagement campaigns in one place.

Our Digital Signage solutions include:

- Content Management System
- Video Walls
- Shuttle Tracker
- Wayfinding
- Topic Boards
- Mobile Signage
- Digital Menu Boards
- Media Players

Enterprise Video

Our solutions enable the delivery of live broadcast TV, in-house streams, recordings, and video on demand to any supported media player, set top box, laptop, touchscreen or mobile device as a standalone stream or as part of digital signage display content.

Our Enterprise Video solutions include:

- IPTV
- Desktop Video
- Mobile Video
- Lecture Capture
- Live Streaming & Webcasting
- Video on Demand
- Video Encoders

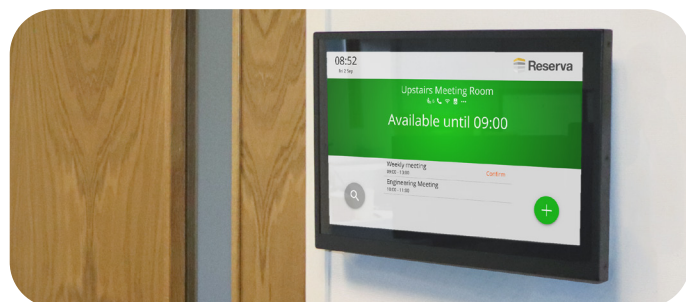

Public Use Technology

Uniguest's digital engagement platform includes a variety of offerings for public interaction including via directory, video, information and communication apps to interactive displays, secure workstations and interactive TV and voice technology.

Our Public-Use Technology solutions include:

- Digital Hotel Guest Directory
