Uniguest Hub Casting.

Uniguest Hub Casting is your one-stop solution for guest content casting that gives a true 'at home' experience.

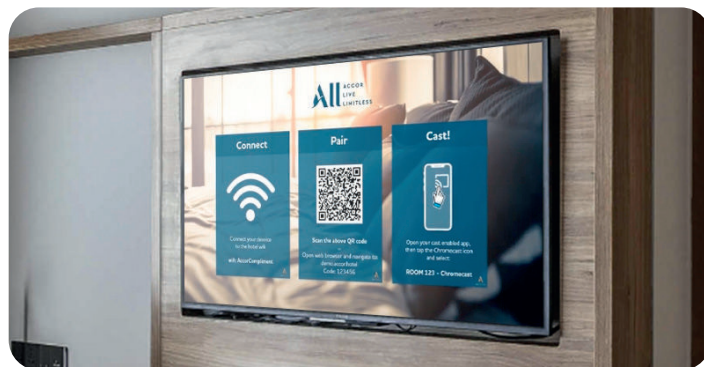

Meet your guests' expectations with the new 'must have' offering. Easy management and customization of the casting experience via a simple web-based configuration tool.

Industry standard cast solution deployed in over 150,000 rooms. Technical staff are able to manage the Chromecast hardware remotely, including Wi-Fi strength monitoring, naming and connectivity status.

Key Features

-  Access through Hub Interactive TV
-  iOS or Android compatible
-  Simple QR code authentication
-  Front desk support tools
-  Automated disconnect at check-out
-  Supports Google Cast certified integrated Casting (LG, Samsung, and Philips)

Uniguest Hub Digital Signage.

All management and customization of the guest experience is facilitated through an intuitive and powerful web-based content management system.

Technical staff can manage the signage hardware remotely, including rotation, reboot, power and volume.

Uniguest Hub Digital Signage is the first cloud-based signage platform designed exclusively for the hospitality sector and it shows. The platform is provisioned 100% from the Amazon Web Services (AWS) cloud and all hosting fees are covered in the recurring license.

Key Features

-  Accor branding
-  Philips, LG & Samsung SOC
-  100% cloud based
-  Interface with OPERA S&C
-  Web based CMS
-  Simple scheduling of content
-  Automated wayfinding
-  Live weather, newsfeeds, & flight info
-  STB for legacy screens
